Prior proper organisation

Before leaving for mobility, we were not informed about the costs that await us. What we agreed on at the first meeting on mobility, the host did not adhere to it. The hosts were neither organized nor prepared.
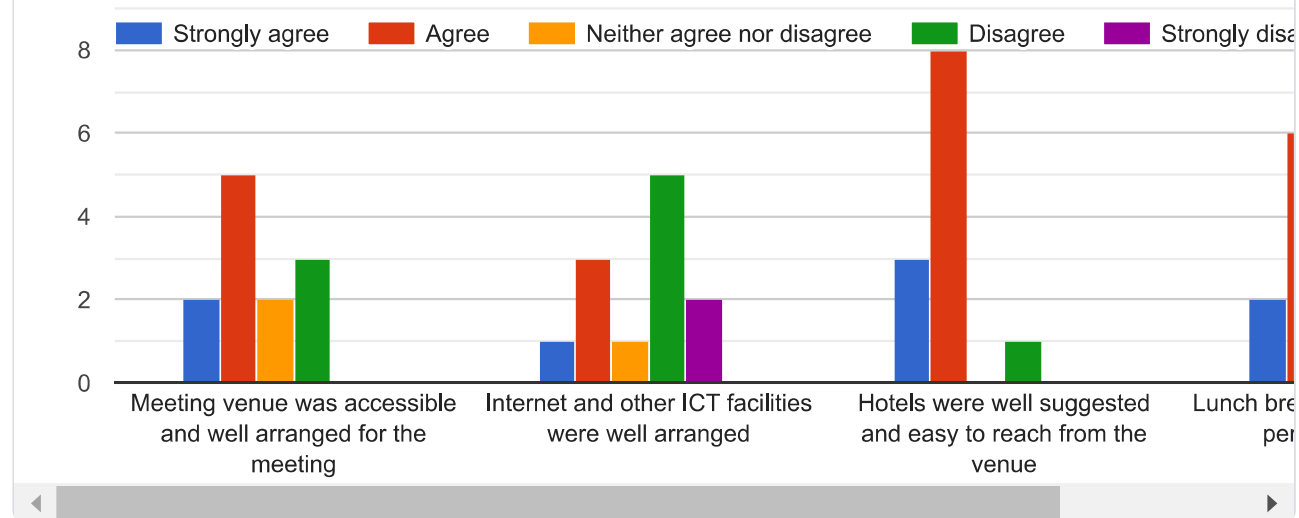

It's always nice to have the address of the venue and the location!

There weren't any visible markings for payment. We didn't see any specifications for our presentation or what we had to prepare.

no comment

3. Project mobility arrangements

Legend: Strongly agree (blue) · Agree (red) · Neither agree nor disagree (orange) · Disagree (green) · Strongly disagree (purple)

Categories: Meeting venue was accessible and well arranged for the meeting · Internet and other ICT facilities were well arranged · Hotels were well suggested and easy to reach from the venue · Lunch breaks per...

Internet was not available in the whole school, only on the ground floor. Breaks were not arranged in advance, everything was by the way.
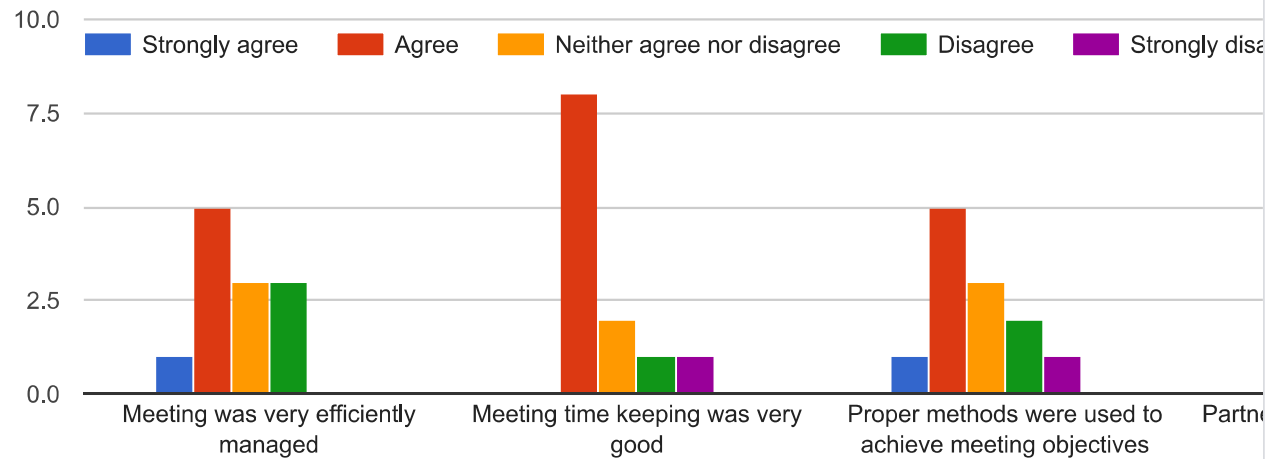

It's always nice to have wi-fi and drinking water.

There was missing details on day's planning. We didn't see precise times for our day's activities.

The meeting was conducted efficiently as it was led by the project coordinator. The hosts did not really adhere to what we agreed on at the meeting. All other teams were very much in agreement in all ideas and proposals.

Budget issues arealways important and should be discussed and fixed before the mobility. It wasn't done in Turkey!

Your own presentations and preperations were excellent, but we are displeased about the expenses and the fact, that they weren't visible.

7. I know what is expected on behalf of our organization in the next phases of the project

12 responses

- yes, I know exactly what is expected on behalf of our organization
- Yes, I know what is expected in general, but I will need to approach the coordinator again to clarify some details
- I do not know what is expected from our organization in the next phases of the project
